Senior secondary education statistics (years 10, 11 and 12) 2008

Information is provided on the participation and achievement of students in Curriculum Council approved subjects and WACE course units in 2008.

The statistics presented are based upon information provided by government and non-government schools. Students who completed at least one approved Curriculum Council subject or course unit and who were awarded a grade of achievement in that subject/course unit are included in the statistics. Students who successfully completed units of competency and endorsed programs are also included in the statistics.

The information may be viewed below by clicking on the appropriate table or figure.

Curriculum Council

Explanation of marks adjustment process to produce scaled scores

A student's statement of results contains, among other things, three marks as follows:

- raw examination mark
- school mark and
- scaled mark.

These marks are related in a way which is not immediately obvious and which needs explanation, because scaled marks are used to calculate a student's tertiary entrance score (TES, out of 510) and subsequently the student's tertiary entrance rank (TER, out of 100).

1. EXAMINATION MARKS

Raw examination mark

Each student enrolled in a tertiary entrance examination subject and new WACE examination course is eligible to sit the external examination in that subject or course.

Students' answers to written examination questions are marked independently by two qualified markers and under the supervision of a chief marker. The overall mark obtained by the student on the examination is recorded as a mark out of 100. It is referred to as the *Raw Examination Mark*.

Standardisation of examination marks

The raw examination marks for each subject or course are adjusted (standardised) so that equally ranked students in all exams will have equal standardised marks (i.e. a standardised mark of 60 in English has the same rank as a standardised mark of 60 in any other subject or course).

Standardisation of marks allows the meaningful adding of marks within a calendar year and across different years of examinations.

2. SCHOOL MARK

School mark

At the end of the year, teachers use information based upon such things as semester examinations, classroom tests, class work, research assignments and practical work to summarise each student's performance over the year in a number out of 100 (usually).

Statistical moderation of school marks

It is likely that there will be some differences in the ways that teachers in different schools award school marks. To adjust for these differences, for each subject or course, the standardised examination marks of students at a school are used to moderate marks awarded by the school.

After the moderation process has been carried out, students can be confident that the resulting mark (called the moderated school mark) can be directly compared with the moderated school marks of students from other schools in the same subject or course.

It is to be expected that school marks awarded by a school will change as a consequence of moderation. Schools which have been relatively lenient in their awarding of marks will have their students' marks moderated downwards. Schools which have been relatively harsh in their awarding of marks will have their students' marks moderated upwards. Whichever, moderation never alters a student's relative position in the school subject or course.

The moderated school marks are standardised using the same procedure which is used to standardise the raw examination marks.

3. COMBINED MARK

The Curriculum Council believes that a combination of the examination mark and the school mark is a better indicator of a student's past performance, and potential for future success, than either of these in isolation. The combined mark is obtained by taking the average of the standardised examination mark and the standardised moderated school mark.

4. DECILE PLACE

The decile place of a student's combined mark is indicated by a number from 1 to 10 and gives an indication of how well the student performed in comparison to all students in the subject or course. For example:

'1' indicates the student is in the top 10% of students in the subject or course

'2' indicates the student is in the second 10% of students in the subject or course etc.

5. SCALING

Reason for scaling

Scaling adjusts for differences in difficulty between subjects or courses and aims to ensure that students are not disadvantaged by their subject or course choice. After scaling, marks in different subjects or courses can be compared with each other, and can be fairly added together to produce the tertiary entrance scores which are used to calculate tertiary entrance ranks.

The method used to produce scaled marks

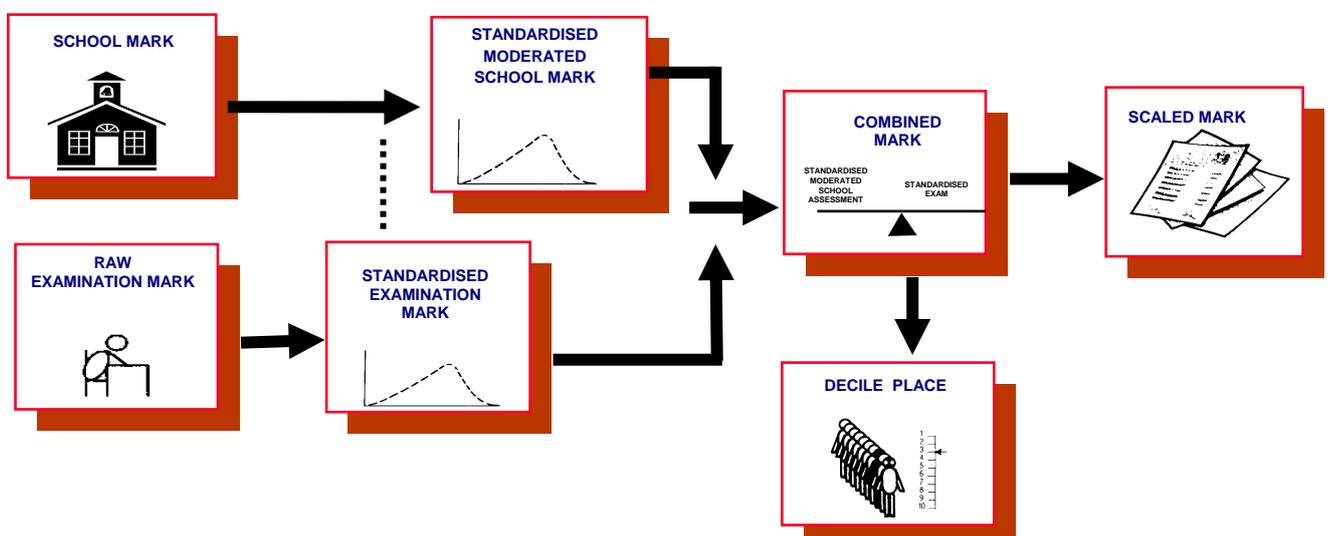

The average marks scaling (AMS) method is used to adjust the combined marks to produce scaled marks. The method is used jointly by the Curriculum Council and the Tertiary Institutions Service Centre.

For each subject or course, the method

1. determines the general abilities of the students in the subject or course by considering their performances on all the other examination they have sat;
2. determines the average ability of the students in the subject or course, and the spread of these abilities; and
3. adjusts (scales) the combined marks in the subject or course in accordance with the distribution of the abilities of the students in the subject or course.

Basically, the higher the general ability of the cohort of students in a subject or course, the higher will be the scaled marks in the subject or course.

The diagram below summarises the steps involved in obtaining scaled marks in a subject or course.

Certification of senior secondary schooling achievement in 2008

In 2008, the Curriculum Council continued to issue the *statement of results* to all Year 11 and Year 12 students who completed an upper school Curriculum Council subject (D code and E code), course unit, a unit of competency or endorsed program. In addition, those Year 12 students who met the requirements were issued with the *Western Australian Certificate of Education (WACE)*.

Statement of results for Year 12 students

Statements of results were issued to all Year 12 students who had achieved at least one Curriculum Council subject (D code and E code), course unit, unit of competence or endorsed program. The *statement of results* was issued to 20,461 (9,610 males and 10,851 females) Year 12 students in 2008.

The *statement of results* recorded:

- (a) grades achieved in Year 11 (D code) and Year 12 (E code) Curriculum Council subjects (A, B, C, D or E).
- (b) grades achieved in course units (A, B, C, D or E).
- (c) achievement of units of competency/national training modules and the name of the relevant registered training organisation (RTO). The number of vocational education and training (VET) subject equivalents was also indicated.
- (d) achievement of endorsed programs.
- (e) achievement of a WACE.
- (f) achievement of Curriculum Council English language competence.
- (g) qualifications achieved in full and the name of the RTO through which the student achieved the qualification. If the qualification was achieved through a traineeship, then this was also recorded.
- (g) results in external examinations.
- (h) achievement of exhibitions and awards.

Details relating to each item which appears on the *statement of results* are given below.

Achievement in Curriculum Council subjects

Curriculum Council subjects were certificated on the *statement of results*. Full-year Curriculum Council subjects typically were studied for at least 110 hours. To provide a sound basis for standards assessment, materials for Curriculum Council subjects included a syllabus statement with either:

- objectives or outcomes stated in behavioural terms
- an assessment structure or a common assessment framework
- a set of grade-related descriptors or performance criteria.

The Curriculum Council moderates the grades in its subjects (e.g. by visitation or consensus) to ensure comparability of grades from school to school.

The grades awarded at the conclusion of a subject were based on each student's performance as judged by reference to the grade-related descriptors or grading algorithm. The grades may be interpreted as follows:

- Grade A indicate 'excellent achievement'
- Grade B indicate 'high achievement'
- Grade C indicate 'satisfactory achievement'
- Grade D indicate 'limited achievement'
- Grade E indicate 'inadequate achievement'.

Achievement in WACE course units

From 2005, new WACE courses have been implemented into senior secondary schooling (Year 11 and Year 12). These courses were delivered in semester-length units.

Explicit standards are used to measure the achievement of the course units. School achievement in course units was recorded as a grade, with the exception of preliminary stage units, which were recorded as completed, if achieved.

Course units are available according to the following stages:

- | | |
|-----------------|--|
| stage 3 units | are typically the most conceptually demanding requirements for post-school destinations: university, TAFE and other training providers, apprenticeships and workplace. |
| stage 2 units | are typically required for post-school destinations; TAFE and other training providers, apprenticeships, traineeships, university and workplace. |
| stage 1 units | are typically required for post-school destinations: TAFE and other training providers, traineeships and workplace. |
| stage 'P' units | are typically required for developing skills for leaving school or transition to Stage 1 units. |

For interpretation of grades, please refer to the grades in the *Achievement in Curriculum Council subjects* section above.

Structured workplace learning

Structured workplace learning subjects provided students with the opportunity to develop skills in the workplace and obtain grades contributing to the *Western Australian Certificate of Education*.

For the *Western Australian Certificate of Education*, students could only obtain recognition for one introduction to workplace learning subject (D962) and one industry specific workplace learning subject (E code).

Units of competency (competencies)

Units of competency (competencies) were available for a range of industry areas. These competencies were included in schools' Year 11 and Year 12 programs. Students who successfully completed one or more competencies had the achievement recorded on their *statements of results*. The name and code of the registered training organisation (RTO) responsible for assessing the competency has also been recorded.

Schools were requested to provide details relating to the qualifications achieved in full and whether or not the qualification was achieved through a traineeship. The name of the RTO at which a student achieved a VET qualification was also listed on students' statements of results. In 2007, there were 2577 Year 12 students who had 3611 qualifications recorded on their statements and 1302 Year 11 students who had 1583 qualifications recorded. If the qualification was achieved through a traineeship, then this was also recorded. There were two Year 11 students and 60 Year 12 students who achieved full qualifications through traineeship arrangements.

The achievement of competencies was recognised by the Curriculum Council for the *statement of results* and *Western Australian Certificate of Education* in two categories. The first category included those which were studied as part of a Curriculum Council subject/WACE course (i.e. integrated competencies). The second category was where a student studied a competency in addition to Curriculum Council subjects/WACE courses (i.e. stand alone competency).

Using nominal hours provided in the training packages, the Curriculum Council allocates stand alone competencies, successfully completed by students, 55 hour or 110 hour blocks to form half and full VET subject equivalents respectively. These VET subject equivalents contributed towards the *Western Australian Certificate of Education*. Students who successfully completed competencies that represented subject equivalents had the number of VET subject equivalents indicated on their *statement of results*.

Endorsed programs

Programs endorsed by the Curriculum Council recognise significant learning by students not covered by courses developed by the Curriculum Council. Endorsed programs are awarded unit equivalence according to specific criteria and can contribute up to 50 per cent of the WACE completion requirement. Descriptors of achievement are recorded in the statement of results in a manner appropriate to the program.

The program areas include:

- workplace learning
- university studies
- community organisation programs
- personal development programs.

Western Australian Certificate of Education

To achieve a *Western Australian Certificate of Education* a student must have met the following requirements:

- complete at least 10 full-year (or equivalent) Curriculum Council subjects
 - Up to five out of 10 full-year subjects may comprise endorsed programs, including stand alone vocational education and training (VET) subject equivalents.
 - Any two units from one of the WACE courses count as a subject. A single unit counts as a half-subject equivalent.
- Achieve an average grade of C or better in at least eight full-year (or equivalent) Curriculum Council subjects.
 - Up to three out of eight full-year subjects may comprise endorsed programs, including stand alone VET subject equivalents.

- At least four of these subjects must be at Year 12 level (E code).
- Two course units will count as an equivalent of one of the eight subjects.
- Course units completed during Year 12 can be counted towards the four subjects at Year 12 level.
- achieve Curriculum Council English language competence.

Students who completed Year 12 and met the above requirements were issued with the *Western Australian Certificate of Education (WACE)*. *Western Australian Certificates of Education* were issued to 18,083 (8,231 males and 9,852 females) Year 12 students in 2008.

English language competence

To achieve Curriculum Council English language competence students must have:

- completed, in the final year of senior secondary schooling, at least two units from an English course and meet the English language competence standard, as defined by work samples, or
- achieved an average of C grade or better in an E code Curriculum Council subject: English, English Literature, English as a Second Language, Senior English or Vocational English, or
- an average of at least level 4 or better across two units in Year 12 in the English course, or
- a grade of C or better across two units completed in Year 12 in English as an Additional Language/Dialect or Literature.

Alternatively, students who were enrolled in either a Year 12 subject or WACE unit in an English course may have sat for the Curriculum Council English language competence test. A pass satisfied the English language competence requirement.

Tertiary entrance examination/WACE examination results

The following information was listed for each tertiary entrance examination subject/WACE examination course:

- school assessment
- raw examination mark
- scaled mark
- decile place . Decile place provides an indication of a student's position relative to the other students in the subject/course. For example, a decile place of 1 indicates that a student is in the top 10 per cent of students sitting the examination.

Exhibitions and awards

The Curriculum Council granted the following awards:

- Beazley medal: TEE
- Beazley medal: VET
- general exhibitions
- subject/course exhibitions
- certificates of distinction
- certificates of excellence
- special general awards
- special subject/course awards
- special certificates of distinction.

In 2008, there were two additional general exhibitions awarded. One of these was the General exhibition (ATSI) which may be awarded to the top eligible Aboriginal and Torres Strait Islander student and the other was the General exhibition (ESL/ESD) which may be awarded to the top eligible student with an ESL/ESD background.

Statement of results for Year 11 students

Statements of results were issued to 25,540 (12,733 males and 12,807 females) Year 11 students who completed at least one Curriculum Council subject, at least one competency, at least one endorsed program or at least one course unit in 2008. The *statements of results* were sent to schools in March 2009 and staff at these schools were asked to distribute them to their students.

Number of Year 12 students completing approved Year 12 subjects or WACE course units	9665	10920	20585		9532	10832	20364	

* The percentage of the number of Year 12 students who completed Year 12 subjects or course units. For a given year, the addition of the percentages is greater than 100 per cent as the categories used are not independent. That is, some "re-entry" students could also be classified as mature-age students. These students would have been counted in both.

** "Repeating" students are Year 12 students who completed at least one subject, course unit or equivalent and were Year 12 full-time (studying five subjects or equivalent) students in the previous year.

*** "Re-entry" students are Year 12 full-time students who received grades in subjects, completed course units or equivalent and had not been enrolled in a Curriculum Council Year 12 subject or equivalent for at least one year. Students re-entering enrolled do not have to enrol in the Year 12 subjects completed previously.

**** Mature-age students are students aged 19 years or more on 1 March of the year they received grade(s) in at least one Curriculum Council approved Year 12 subject or WACE course unit.

***** These categories of students do not include "repeating", "re-entry" or mature-age students.

Population is all Year 11 and Year 12 students who completed at least one full year subject, course unit equivalent or equivalent.

* A completed subject means a full year subject or equivalent. For example two half year subjects are equivalent to one full year subject.

** A single course unit is equivalent to half-subject equivalent. For example two course units are equivalent to one full year subject.

Certificate of Excellence	219	312	531

* The number awarded does not equal the addition of the number of male and female award recipients. This is because a student may have received more than one award.

Beazley Medal: TEE	was awarded to the highest ranked eligible student with a general exhibition.
Beazley Medal: VET	was awarded to the eligible student who had demonstrated the best results in a vocational program.
General exhibitions	were awarded to the forty eligible students with the highest Curriculum Council award score based on the average of 5 TEE subjects/WACE courses scaled marks.
General exhibitions (ATSI)	was awarded to the eligible Aboriginal and Torres Strait Islander student with the highest Curriculum Council award score based on the average of 5 TEE subjects/WACE courses scaled marks.
General exhibitions (ESL/ELD)	was awarded to the eligible student with an ESL/ELD background with the highest Curriculum Council award score based on the average of 5 TEE subjects/WACE courses scaled marks.
Subject exhibitions: TEE subject/WACE course	were awarded to the eligible students who obtained the highest raw examination mark in a TEE subject/WACE course.
Subject exhibitions: Wholly school assessed subjects	were awarded to the eligible student who was the top student in a wholly school-assessed subject.
Certificate of distinctions: TEE subject/WACE course	were awarded to the eligible students who were in the top 0.5% or the two top candidates (whichever was the greater) of candidates sitting the examination in a TEE subject/WACE course.
Certificate of distinctions: Wholly school assessed subjects	were awarded to the eligible students who were in the top 0.5% or the two top candidates (whichever was the greater) of students in Year 12 wholly school assessed subjects with a student enrolment greater than 100. Selection was by a panel appointed by the Curriculum Council from nominations submitted by schools.

Curriculum Council

Certificate of excellence

were awarded to students obtaining at least ten grades of A in year-long Curriculum Council subjects or equivalent WACE courses or VET units of competence in their last two consecutive years of secondary education in Western Australia.

Special Awards

were awarded to students who met the award conditions but failed to meet the eligibility criteria such as residency, for example.

** Up until and including 1994, full-time students were those enrolled in five and more Secondary Education Authority (SEA) approved subjects. Students enrolled in four or fewer approved subjects were classified as part time. However, in 1995, the SEA resolved that full-time students be classified as those who studied four or more (full year or equivalent) SEA approved subjects.

*** With the introduction of WACE courses, there was a change in the enrolment procedures. In 2008, Year 12 students who enrolled in either a Stage 2 or Stage 3 course that had an external examination were automatically enrolled to sit for this examination. As such, the 2008 figures are higher than expected.

* No. of enrolled candidates= no. of non-exam candidates + no. who sat + no. who were absent

** In 1995, the Secondary Education Authority changed the procedure for recording absentees for Art, in Music and LOTE subjects. Previously, students who had not sat for the written examination were recorded as being absent even if they had completed the visual diary, performance or oral/aural component of the examination.

From 1995, students in these subjects are recorded as being absent if they did not attend both parts of their examination.

* 'Anomalous Performers' are examination candidates whose performances were significantly different from their level of achievement in school. In the interest of accuracy their marks were not used to calculate the parameters on which statistical moderation of school assessments was based. Any student for whom the difference between the standardised moderated school mark and the standardised examination mark exceeds approximately 17 marks will be classified as an 'Anomalous Performer'.

Note: The raw marks which are standardised to 48,60,72, and 80 are those of students whose mark is higher than 10,30,70 and 90 per cent respectively of other student sitting the examination. A raw mark of 0 becomes a standardised mark of 20, and the highest raw mark is standardised to 100. Having determined these standardisation points other raw examination marks may be transformed to

* The raw marks which are standardised to 48, 60, 72 and 80 are those of students whose mark is higher than 10, 30, 70 and 90 per cent respectively of other students sitting the examinations. A raw mark of 0 becomes a standardised mark of 0, and the highest raw mark is standardised to 100. Having determined these standardisation points other raw examination marks may be transformed to standardised marks by linear interpolation.

** Entries for these courses are not provided because each has significant elements of choice available in the examination (i.e. stages and contexts). This means that raw marks for different candidates of these courses are not directly comparable.

*** Standardised marks for Arabic, Hebrew, Japanese: Advanced and Modern Greek are not provided as the raw examination marks were not standardised and are not comparable to other subjects/courses.

Table 4.16 Subject loading for each TEE subject/WACE examination, 2007-2008

The mean of all scaled scores across all subjects/courses is 58. The subject loading is the difference between a subject's/course's mean scaled mark and 58, and therefore describes the extent to which an average student's combined mark is affected by the scaling process. For example, in 2006, the subject loading for Accounting was -2.05 because an average student's scaled mark in Accounting was 2.05 marks lower than his/her combined marks.

* The population is the scaling population. To be included in this population a student must:

- have a combined mark for the subject/course.
- have marks for at least four TEE subjects/WACE examination course including at least one from each of List 1 and List 2.

For language subjects that include both background and non-background speakers, the results of students who are background speakers are excluded from the scaling population.

** These subjects had combined marks that were not based on the standardised distribution. The scaling statistics are therefore not comparable with those of other subjects/course.

* Up until and including 1994, full-time students were those enrolled in five or more Secondary Education Authority (SEA) approved subjects. Students enrolled in four or fewer approved subjects were classified as part time. However, in 1995, the SEA resolved that full-time students be classified as those who studied four or more (full year or equivalent) SEA approved subjects.

** 16+ - 17 This age range includes candidates who are older than 16 years and up to and including 17 years as at 31 December 2008.

*** With the introduction of WACE courses, there was a change in the enrolment procedures. In 2008, Year 12 students who enrolled in either a Stage 2 or Stage 3 course that had an external examination were automatically enrolled to sit for this examination. As such, the 2008 figures are higher than expected.

* No. of enrolled candidates= no. of non-exam candidates + no. who sat + no. who were absent

** In 1995, the Secondary Education Authority changed the procedure for recording absentees for Art, in Music and LOTE subjects. Previously, students who had not sat for the written examination were recorded as being absent even if they had completed the visual diary, performance or oral/aural component of the examination.

From 1995, students in these subjects are recorded as being absent if they did not attend both parts of their examination.

* Pearson product-moment correlation coefficients between the scaled marks achieved by students in the particular combination. The number of students in a particular subject/course combination is indicated under the correlation.

Note: Details relating to Japanese: Advanced, Hebrew, Arabic and Modern Greek details are not included as the examinations in these subjects are produced by other Australian states and the subjects have very small candidates.

* Pearson product-moment correlation coefficients between the scaled marks achieved by students in the particular combination. The number of students in a particular subject/course combination is indicated under the correlation.

Note: As the combined marks for English as a Second Language are not scaled, details are not included in the table. Also, Japanese: Advanced, Hebrew, Arabic and Modern Greek details are not included as the examinations in these subjects are produced by other Australian states and the subjects have very small candidatures.
