

# Student Records Management System News for secondary schools

July 2021 | Newsletter 5

## Online WACE language enrolment applications

The School Curriculum and Standards Authority (the Authority) is delighted to report that many students are successfully completing their online *Application for permission to enrol in a WACE language course in 2022* in the [student portal \(https://studentportal.scsa.wa.edu.au/\)](https://studentportal.scsa.wa.edu.au/).

At the beginning of Term 3, please encourage your Year 10 students, and Year 9 accelerated students, to complete their online WACE language applications in the student portal.

Schools will then upload the three supporting documents, and complete the teacher declaration, and principal or deputy principal endorsement in the [SRMS portal \(https://srms.scsa.wa.edu.au/\)](https://srms.scsa.wa.edu.au/).

You will find these links on the Authority home page under the purple Useful Links panel.

## SRMS resources

To assist students and schools with this new online application process, we have prepared user guides and other resources, which are available on the Authority website.

Click on the Years 11 and 12 tab, then select Languages in the purple box. The Authority has created a new enrolment tab for each of the WACE language courses, with further tabs containing information about the WACE language enrolment application process and enrolment guides for students and schools.

## Video of online languages demonstration

Thank you to the schools who attended the demonstrations of the new online language application process on Tuesday, 25 May and Wednesday, 26 May. The Authority has prepared a video of the demonstration for those who were unable to attend or to use for training purposes.

Click on the following link to watch this video:

## Questions

If you have any questions, please email them to [languagesenrolment@scsa.wa.edu.au](mailto:languagesenrolment@scsa.wa.edu.au) or [wacehelp@scsa.wa.edu.au](mailto:wacehelp@scsa.wa.edu.au) (logging in, and password queries).

We look forward to the successful implementation of online WACE language enrolment applications.
