## SECONDARY EDUCATION STATISTICS

(Years 11 and 12)
2001

## SECTION 1

## GENERAL

Certification of Post-compulsory Student Achievement in 2001
Upper Secondary Schools and Student Information
Certification and Secondary Graduation
Full Fee Paying Overseas Students
Aboriginal and Torres Strait Islander Students
Abbreviations used in section:

* TAFE refers to Technical and Further Education.
* TEE refers to Tertiary Entrance Examination.
* TER refers to Tertiary Entrance Rank.

## SECTION 2

## YEAR 11 SUBJECT STATISTICS

[^0]
## SECTION 3

## YEAR 12 SUBJECT STATISTICS

Abbreviations used in section:

* CCAFL refers to Collaborative Curriculum and Assessment Framework for Languages.
* SWL refers to Structured Workplace Learning.
* TAFE refers to Technical and Further Education.
* TEE refers to Tertiary Entrance Examination.

## SECTION 4

## TERTIARY ENTRANCE EXAMINATIONS (TEE)

## Tertiary Entrance Examination - Explanation of Marks

Candidate Information
Examinations Information
Full Fee Paying Overseas Students
Abbreviations used in section:

* ESL refers to English as a Second Language.
* LOTE refers to Languages other than English.
* TEE refers to Tertiary Entrance Examination.

## SECTION 5

## VOCATIONAL EDUCATION AND TRAINING (VET)

This section contains data relating to Year 11 and Year 12 students who successfully completed Units of Competency/National Training Modules and/or studied Structured Workplace Learning Subjects.

Data relating to students who studied Vocational Subjects can be found in Sections 2 and 3.

Abbreviations used in this section:

* ANTA refers Australian National Training Authority.
* SWL refers to Structured Workplace Learning.
* TAFE refers to Technical and Further Education.

## SECTION 6

# SECONDARY STUDENT PROGRESSION AND RETENTION RATES 

## SELECTED YEARS

This section contains the number of full-time students in Years 7 to 12 and the full-time secondary student progression and retention rates for Years 8 to 12, for selected years.

The figures were provided by the Information Services Branch of the Department of Education.

## Secondary Education Statistics (Years 11 and 12) 2001

Information is provided on the participation and achievement of students in Curriculum Council approved subjects in 2001.

The statistics presented are based upon information provided by government and non-government schools. Students who completed at least one approved Curriculum Council subject and who were awarded a grade of achievement in that subject are included in the statistics. Students who successfully completed Units of Competency/National Training Modules are also included in the statistics.

The information may be viewed below by clicking on the appropriate table or figure.

## Curriculum Council

## Summary Statistics on Tertiary Entrance Examination Papers, 2001

## Candidates

The number of students who sat one or more Tertiary Entrance Examinations increased slightly to 12058 in 2001 from 11986 in 2000. Slightly fewer examinations were sat (54686 in 2001 compared with 54461 in 2000), reflecting the trend for individual students to sit very slightly fewer subjects.

The following comments on specific TEE subjects and their examinations are based on statistics presented in Table 4.11.

There were substantial increases (greater than 10 percent) in the proportions of candidates who sat the TEE in Chinese: Second Language, Drama Studies, Indonesian: Second Language and Political \& Legal Studies. Drama Studies (commenced in 1999) and Political \& Legal Studies (commenced in 1997) are relatively new subjects that are still increasing in popularity. Another relatively new subject, Information Systems (commenced in 1997), made a smaller amount of growth.

Conspicuous decreases (more than 10 percent) were observed in Geology, German, Indonesian: Advanced and Malay: Advanced.

## Full use of the marking scale

Examiners are expected to make full use of the marking scale. A restricted range of marks increases the risk of mis-ranking candidates. In 14 subjects ( 13 in 2000) the marks spanned 90 or more percentage points, and in a further 10 ( 7 in 2000) subjects the range was $80-89$. The subjects with a range less than 80 were Chinese: Second Language, ESL, Geology, German, Indonesian: Advanced, Malay: Advanced and Music. With the exception of ESL, the examinations in these subjects usually have a restricted range of marks.

## Level of difficulty

TEE examiners were asked to set examinations that would result in mean raw marks of 55-60 percent. Sixteen examining panels ( 13 in 2000) achieved the desired level of difficulty. The only examination with a mean mark below 50 percent was Physical Science. Four subjects had comparatively easy papers with mean marks above 65: Chinese: Second Language, Geology, German and Italian.

In German, it is usually claimed that the high number of background speakers gives the impression that the examination is easier than it is; however, since the mean raw TEE mark was 66.97 with background speakers excluded the 2001 paper was still too easy. The Chief Examiner judged the level of difficulty of the paper in Chinese: Second Language to be appropriate for totally second language candidates. According to the Chief Examiner eligibility for this subject remains problematic because there is a wide spectrum of language background amongst candidates. In Geology the Chief Examiner reported that a "smaller number of candidates sitting, coupled with the stronger performance across the entire paper, has resulted in a much higher overall mean mark". Examiners of German and Italian will be asked to make their papers for 2002 more difficult.

Raw TEE marks were subjected to standardisation, which adjusted them to the same distribution in every subject. Thus, if examiners did not achie ve a mean mark in the desired range (55-60), candidates who sat the examination to the best of their ability experienced no disadvantage. However, their raw examination marks may have been adjusted by a considerable amount during standardisation.

## Reliability

Overall, the reliabilities of all of the examinations were high in 2001, considering that they were untrialled tests. They ranged from 0.62 to 0.93 ( 0.73 to 0.97 in 2000). Sixteen subjects had a higher reliability in 2001 than in 2000, while fourteen had lower reliabilities. A conspicuous increase was seen in Music, and conspicuous decreases were seen in Art and ESL. These changes did not coincide with any changes in syllabus or examination format, and therefore reflect the success of the examiners in ranking candidates.

## Concurrent evidence for validity

The Pearson correlation coefficients between TEE marks and school marks, after adjustment to a common scale, provide concurrent evidence of validity for the examinations. They represent the extent to which the two measures-the external assessment and the internal assessment-measure the same construct. If the TEE measures something markedly different from what teachers measure with their assessments, the correlation will be substantially lower than 1.00 .

It can be seen in the table that the correlations between schoolbased marks and the TEE are generally high, ranging from 0.71 to 0.96 ( 0.62 to 0.94 in 2000). An overall judgment that the TEE assessed the same achievements as the schoolbased assessments seems reasonable.

## Conclusions

The statistical evidence from the 2001 TEE papers indicates that the overall quality of the examinations remains at least as high as we have grown accustomed to in recent years. The high reliability statistics would not be possible without a high level of comparability in the marking process. In a few cases, the statistics can be used to point out to examiners specific areas for improvement in the future.

Strong evidence for validity comes from:

- The methodology of content control;
- The statistical evidence for concurrent validity;
- The evidence of internal consistency implied by the generally high reliability statistics;
- The overall public acceptability of the examinations.

It may be concluded from this that the 2001 TEE papers provided valid and credible assessment of the appropriate Year 12 subjects.

## Notes on Table 4.11

Table 4.11 displays statistical data relating to the effectiveness of the 2001 Tertiary Entrance Examinations as assessment instruments for the purpose of university entrance. Statistics in parentheses are for the 2000 papers, and are included for comparison. The notes provided below should be read in conjunction with the table.

Since these statistics are intended to allow the reader to evaluate the TEE papers, rather than the candidates, summary statistics for papers set in other states (ie Japanese: Advanced and Modern Greek) are not stated. For these examinations some of the summary statistics are unavailable because only a limited set of marks was available to the Curriculum Council.

| Column 2: | The number of candidates in WA in 2001 (2000 in parentheses). |
| :--- | :--- |
| Column 3: | The mean is the average percentage score achieved by candidates on the paper and <br> acts as a rough measure of difficulty. Examining panels are instructed by the <br> Curriculum Council to try to set a paper with a mean in the range 55-60. When the <br> mean is outside this range, standardisation may change students' marks <br> considerably. |
| Column 4: | The range is one plus the difference between the maximum and minimum <br> percentage scores achieved by candidates. It is a measure of the spread of scores <br> and use of the measurement scale. Examining panels are instructed to try to use the <br> full measurement scale of 1 to 99 as this allows greater discrimination between <br> students. |
| Column 5: | The reliability indicates how internally consistent the examination is. A high <br> reliability is needed for candidates to be ranked accurately. A perfectly reliable <br> examination would be completely free of errors of measurement and would produce <br> the same candidate scores each time it was set and marked. A perfectly reliable <br> examination would have all items measuring in the same dimension and would <br> result in a reliability of 1.0. |
|  | Where papers allow students a choice of questions between sections, or throughout <br> the entire paper, it is not appropriate to calculate the reliability. The reliability is <br> given for the paper as a whole and for the multiple-choice section where <br> appropriate. |
| Column 6: | The Pearson correlation coefficient between the standardised examination marks <br> and the standardised moderated school assessments measures the concurrent <br> evidence for validity of the paper. A perfectly linear relationship between <br> candidates' standardised examination marks and standardised moderated school <br> assessments would result in a correlation of 1.0 and would indicate that the <br> examination measured the same achievements as were assessed in class by teachers. |

## Certification of Post-compulsory Student Achievement in 2001

In 2001, the Curriculum Council continued to issue the Statement of Results to all Year 11 and Year 12 students who completed either an upper school Curriculum Council subject or a Unit of Competency/National Training Module. In addition, those Year 12 students who met Secondary Graduation requirements were issued with the Western Australian Certificate of Education (WACE).

## Statement of Results for Year 12 Students

Statements of Results were issued to all Year 12 students whether or not they had met the requirements for the WACE. The Statement of Results was issued to 19111 (9000 males and 10111 females) 2001 Year 12 students.

The Statement of Results recorded the following:
(a) Grades achieved in Year 11 and Year 12 Curriculum Council subjects (A, B, C, D or E).
(b) Achievement of Units of Competency/National Training Modules and the name of the relevant Registered Training Organisation. The number of Vocational Education and Training (VET) subject equivalents were also indicated.
(c) Achievement of Secondary Graduation.
(d) Achievement of Curriculum Council English language competence.
(e) Results in Tertiary Entrance Examination subjects.
(f) Achievement of Exhibitions and Awards.

Details relating to each item which appears on the Statement of Results are given below.

## Grades in Curriculum Council Subjects

Curriculum Council subjects were certificated on the Statement of Results. Full year Curriculum Council subjects typically have been studied for at least 110 hours. In order to provide a sound basis for standards-referenced assessment, materials for Curriculum Council subjects included a syllabus statement with:

- either objectives or outcomes stated in behavioural terms;
- $\quad$ either an Assessment Structure or a Common Assessment Framework; and
- either a set of grade-related descriptors or performance criteria.

The Curriculum Council moderated the grades in its subjects (eg by visitation or consensus) to ensure comparability of grades from school to school.

The grades awarded at the conclusion of a subject were based on each student's performance as judged by reference to the grade-related descriptors or grading algorithm. The grades may be interpreted as follows:

Grade A indicates 'Very High Achievement'
Grade B indicates 'High Achievement'
Grade C indicates 'Satisfactory Achievement'
Grade D indicates 'Limited Achievement'
Grade E indicates 'Inadequate Achievement'.

## Structured Workplace Learning

Structured Workplace Learning subjects provided students the opportunity to develop skills in the workplace and obtain grades contributing to the Western Australian Certificate of Education.

For Secondary Graduation, students could only obtain recognition for one Stage 1 Introduction to Workplace Learning subject and one Stage 2 Industry-specific Workplace Learning subject.

## Units of Competency (competencies)/National Training Modules (modules)

Units of Competency (competencies)/National Training Modules (modules) were available for a range of industry areas. These competencies/modules were included in schools' Year 11 and Year 12 programs. Students who demonstrated or met the required outcomes for the competencies/modules, through a school which was accredited to run them, had the achievement recorded on their Statements of Results. From 2000, the name and code of the Registered Training Organisation (RTO) responsible for assessing the competency/module has also been recorded.

The achievement of competencies/modules was recognised by the Curriculum Council for the Statement of Results and Secondary Graduation in two categories. The first category includes those which were studied as part of a Curriculum Council subject (ie embedded competencies/modules). The second category is where a student studied a competency/module in addition to Curriculum Council subjects (ie stand alone/non-embedded competency/module).

Stand alone/non-embedded competencies/modules successfully completed by students were grouped by the Curriculum Council into 55 hour or 110 hour blocks (using approved notional hours) to form half and full subject equivalents respectively. Competencies/modules from any industry area were grouped by the Curriculum Council to form Vocational Education and Training (VET) subject equivalents. These VET subject equivalents contributed towards Secondary Graduation. Students who successfully completed competencies/modules that represented subject equivalents had the number of subject equivalents indicated on their Statement of Results.

In 2001, Units of Competency/National Training Modules were completed in accord with the Australian Recognition Framework (ARF) and the Australian Qualifications Framework (AQF).

## Secondary Graduation

To achieve Secondary Graduation a student must have met the following requirements:

- complete at least ten full year (or equivalent) Curriculum Council subjects;\#
- obtain an average grade of C or better in at least eight full year (or equivalent)
- Curriculum Council subjects.\#\# At least four of these subjects must be at Year 12 level; and
- achieve Curriculum Council English language competence.
\# Up to $40 \%$ of a student's program of study (ie 4 out of 10 full year subjects) for meeting the subject completion requirement may comprise Vocational Education and Training (VET) subject equivalents.
\#\# Up to $25 \%$ (ie 2 out of 8 full year subjects) for meeting the C grade or better requirement may comprise VET subject equivalents. The inclusion of the VET subject equivalents for Secondary Graduation applies to Units of Competency/National Training Modules successfully completed by Year 11 and Year 12 students from 1999 studied in addition to Curriculum Council subjects.

## English Language Competence

To achieve Curriculum Council English language competence students must have received a grade C or better in one of the following Year 12 Curriculum Council subjects:

- English
- English Literature
- English as a Second Language
- Senior English
- Vocational English.

Alternatively, students who were enrolled in one of the above subjects may have sat the Curriculum Council English Language Competence Test. A pass satisfied the English language competence requirement.

## Tertiary Entrance Examination Results

The following information was listed for each Tertiary Entrance Examination subject:

- school assessment
- raw examination mark
- $\quad$ scaled mark (except in the case of English as a Second Language)
- decile place (except in the case of English as a Second Language).

## Exhibitions and Awards

The Curriculum Council granted the following awards:

- Beazley Medal: TEE
- Beazley Medal: VET
- General Exhibitions
- Subject Exhibitions
- Certificates of Distinction
- Certificates of Excellence
- Special General Awards
- Special Subject Awards
- Special Certificates of Distinction.

## Western Australian Certificate of Education

Students who completed Year 12 and achieved Secondary Graduation were issued with the Western Australian Certificate of Education (WACE). The certificate indicated that the student had satisfied the requirements for Secondary Graduation. Western Australian Certificates of Education were issued to 16537 (7604 males and 8933 females) 2001 Year 12 students.

## Statement of Results for Year 11 Students

Statements of Results were issued to 22033 (10824 males and 11209 females) Year 11 students who completed either at least one Curriculum Council subject or at least one competency/module in 2001. The Statements of Results were sent to schools in March 2002 and staff at these schools were asked to distribute them to their students.

## Tertiary Entrance Examination - Explanation of Marks

The steps by which a scaled mark is reached for a Year 12 Tertiary Entrance Rank Subject are detailed below. The scaled mark is the one that appears on the Statement of Results sent to examination candidates and is the mark which is used to calculate a Tertiary Entrance Rank.

## 1. SCHOOL-BASED MARKS

At the end of the year teachers use information based upon such things as semester examinations, classroom tests, class work, research assignments and practical work to summarise each student's performance.

## (i) Grades

Grades of A, B, C, D or E are awarded by schools in accordance with procedures established by the Curriculum Council. These procedures help ensure that the grades are comparable between schools.
(ii) School Assessment/School Marks

School Assessments are numerical marks in the range of 0 to 100 awarded to students and are submitted by teachers for each Tertiary Entrance Examination subject.

## Moderation of School Assessments

It is likely that there will be some differences in the ways that teachers in different schools award school assessments. To adjust for these differences, the standardised examination marks are used to moderate school assessments so that marks given by different teachers are comparable.

After the moderation process has been carried out students can be confident that the resulting mark (called the moderated school assessment) can be directly compared with the moderated school assessments of students from other schools in the same subject.

It is to be expected that assessment marks awarded by a school will change as a consequence of moderation; however, moderation never alters a student's relative position in the school/subject group.

The moderated school assessments are standardised using the same procedure which is used to standardise the raw examination marks.

## 2. EXAMINATION MARKS

## Raw Examination Mark

Each student enrolled in a Tertiary Entrance Examination subject is eligible to sit for the Tertiary Entrance Examination (TEE) in that subject.

Students' answers to examination questions are marked by two qualified markers independently under the supervision of a Chief Marker. The overall mark obtained by the student on the examination is recorded as a mark out of 100 . It is referred to as the Raw Examination Mark.

## Standardisation of Examination Marks

The raw examination marks for each subject are adjusted so that they indicate students' relative positions in the whole group taking the examination. For example, after standardisation a mark, say 75 , in any examination has the same (standard) meaning as the same mark in any other examination. A standardised mark of 75 means that the student's performance in the examination is better than $90 \%$ of the students attempting the examination.

## 3. COMBINED MARK

The Curriculum Council believes that a better indicator of a student's past performance and potential for future success is provided by a mark which represents a combination of the examination mark and the moderated school assessment.

The combined mark is obtained by taking the average of the standardised examination mark and the standardised moderated school assessment.

## 4. DECILE PLACE

The decile place of a student's combined mark is indicated by a number from 1 to 10 and gives an indication of how well the student performed in comparison to all students in the subject. For example:

1 indicates the student is in the top $10 \%$ of students in the subject.
2 indicates the student is in the second $10 \%$ of students in the subject.
5. SCALING
(i) Method of Scaling

Scaling adjusts for differences in difficulty between subjects and aims to ensure that students are not disadvantaged by their subject choice. The Average Marks Scaling (AMS) method is used jointly by the Curriculum Council and the Tertiary Institutions Service Centre to adjust combined marks onto a common scale.

The AMS method uses the information provided by students' combined marks to compare the abilities of groups of students studying each subject. This information is used to scale the marks of all subjects.
(ii) Scaled Marks

Marks for Tertiary Entrance Rank Subjects are scaled so that marks in different subjects can be compared with each other, and can be added together to calculate Tertiary Entrance Ranks.

Scaled marks are obtained by using the information obtained from the Average Marks Scaling (AMS) method to adjust the combined marks for a subject according to the ability of the students sitting the examination.

The diagram below summarises the steps involved in obtaining scaled marks in a subject.

| Correlations |  |  |  |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  |  | CHSL | ENGL | ELIT | FREN | GERM | INSL | ITAL | JAPSL |

| Category of Students | Year |  |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | 2000 |  |  |  | 2001 |  |  |  |
|  | Male | Female | Persons | \%* | Male | Female | Persons | \% |
| "Repeating" Students** | 330 | 307 | 637 | 3.4 | 368 | 304 | 672 | 3.5 |
| "Re-Entry" Students*** | 98 | 110 | 208 | 1.1 | 346 | 343 | 689 | 3.6 |
| Mature-Age Students**** | 225 | 286 | 511 | 2.7 | 216 | 325 | 541 | 2.8 |
| Students who sat for four or more Tertiary Entrance Rank (TER) subjects***** | 4565 | 5742 | 10307 | 54.7 | 4380 | 5810 | 10190 | 53.4 |
| Students who sat for three or fewer TER subjects***** | 3707 | 3598 | 7305 | 38.8 | 3936 | 3547 | 7483 | 39.2 |
| Number of Year 12 Students completing approved Year 12 Subjects | 8862 | 9975 | 18837 |  | 8992 | 10103 | 19095 |  |

* The percentage of the number of Year 12 students who completed approved Year 12 subjects. For a given year, the addition of the percentages is greater than 100 per cent as the categories used are not independent. That is, some "re-entry" students could also be classified as mature-age students. These students would have been counted in both categories.
** "Repeating" students are Year 12 students who repeat at least one Curriculum Council approved Year 12 subject in which they had received a grade in the previous year. For example a student who repeated Year 12 Chemistry in 2001 received a grade in it in 2000
*** "Re-entry" students are Year 12 students who received a grade in at least one Curriculum Council approved Year 12 subject and had not been enrolled in a Curriculum Council approved Year 12 subject for at least one year. Students re-entering enrolled do not have to enrol in the Year 12 subjects completed previously.
**** Mature-age students are students aged 19 years or more on 1 March of the year they received grade(s) in at least one Curriculum Council approved Year 12 subject
***** These categories of students do not include "repeating", "re-entry" or mature-age students

## Curriculum Council

Table 1.5 Combinations of Year 11 and Year 12 Subjects* Completed in 2001

|  |  | Sex of Student | Number of Year 12 Subjects Completed |  |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  |  | 0 | 1 | 2 | 3 | 4 | 5 | 6 | 7 or More |
|  |  |  | Male | 0 | 124 | 126 | 148 | 474 | 2616 | 3765 | 670 |
|  | 0 | Female | 0 | 164 | 211 | 119 | 453 | 3576 | 3655 | 575 |
|  |  | Persons | 0 | 288 | 337 | 267 | 927 | 6192 | 7420 | 1245 |

|  |  | Male | 168 | 27 | 19 | 19 | 5 | 3 | 0 | 0 |
|  | 3 | Female | 142 | 22 | 21 | 26 | 17 | 1 | 0 | 0 |
|  |  | Persons | 310 | 49 | 40 | 45 | 22 | 4 | 0 | 0 |
|  |  | Male | 367 | 91 | 52 | 7 | 0 | 0 | 0 | 0 |
|  | 4 | Female | 250 | 139 | 56 | 9 | 2 | 0 | 0 | 0 |
|  |  | Persons | 617 | 230 | 108 | 16 | 2 | 0 | 0 | 0 |
|  |  | Male | 1300 | 456 | 19 | 0 | 0 | 1 | 0 | 0 |
|  | 5 | Female | 1371 | 717 | 38 | 1 | 0 | 0 | 0 | 0 |
|  |  | Persons | 2671 | 1173 | 57 | 1 | 0 | 1 | 0 | 0 |
|  |  | Male | 7206 | 82 | 0 | 0 | 0 | 0 | 0 | 0 |
|  | 6 | Female | 7555 | 102 | 0 | 0 | 0 | 0 | 0 | 0 |
|  |  | Persons | 14761 | 184 | 0 | 0 | 0 | 0 | 0 | 0 |
|  |  | Male | 580 | 15 | 0 | 0 | 0 | 0 | 0 | 0 |
|  | 7 or | Female | 420 | 10 | 0 | 0 | 0 | 0 | 0 | 0 |
|  |  | Persons | 1000 | 25 | 0 | 0 | 0 | 0 | 0 | 0 |

Population is all Year 11 and Year 12 students who completed at least one full year subject or equivalent.

* A completed subject means a full year subject or equivalent. For example two half year subjects is equivalent to one full year subject.

## Curriculum Council

Table 1.6 'Typical' School Students* Achieving Secondary Graduation in 2001

| Category of Students | Male | Female | Persons | Percentage of Eligible <br> Cohort |
| :--- | :---: | :---: | :---: | :---: |
| Eligible for Secondary Graduation | 7770 | 8680 | 16450 | $100.0 \%$ |
| Achieving Secondary Graduation | 7084 | 8301 | 15385 | $93.5 \%$ |
| Not Achieving Secondary Graduation only on the <br> English Language Competence Criterion | 61 | 28 | 89 | $0.6 \%$ |
| Not Achieving Secondary Graduation on the Grade <br> Criterion | 625 | 351 | 976 | $5.9 \%$ |

* A 'typical' school student is defined as a student who is less than 19 years old, has completed 10 or more subjects with at least 5 of the subjects completed in Year 12. This does not include repeating or overseas students.

## Curriculum Council

Table 1.7 Number of Exhibitions and Awards Granted in 2001

| Type of Award | Male | Female | Persons |
| :---: | :---: | :---: | :---: |
| Beazley Medal : TEE | 1 | 0 | 1 |
| Beazley Medal : VET | 0 | 1 | 1 |
| General Exhibition | 22 | 18 | 40 |
| Subject Exhibition: TER Subject | 12 | 13 | 25* |
| Subject Exhibition: Wholly School-assessed Subject | 7 | 12 | 19 |
| Special Subject Award: TER Subject | 0 | 1 | 1 |
| Special Subject Award: Wholly School-assessed Subject | 1 | 1 | 2 |
| Certificate of Distinction: TER Subject | 95 | 114 | 209* |
| Certificate of Distinction: Wholly School-assessed Subject | 28 | 59 | 87* |
| Special Certificate of Distinction: TER Subject | 5 | 15 | 20* |
| Special Certificate of Distinction: Wholly School-assessed Subject | 2 | 3 | 5 |
| Certificate of Excellence | 246 | 334 | 580 |

* The number of persons does not equal the addition of the number of male and female award recipients. This is because a student may have received more than one award.

| Beazley Medal:TEE | was awarded to the eligible student with the highest Curriculum Council Award Score based on the average of five Tertiary Entrance Examination scaled marks. |
| :---: | :---: |
| Beazley Medal:VET | was awarded to the eligible student who had demonstrated the best results in a vocational program. |
| General Exhibitions | were awarded to the top 40 eligible students based on the Curriculum Council Award |
| Subject Exhibitions: <br> TER Subjects | were awarded to the eligible student who obtained the highest raw examination mark in each Tertiary Entrance Rank Subject. |
| Subject Exhibitions: <br> Wholly School-assessed Subjects | were awarded to the eligible student who was the top student in the subject for the award of the Certificate of Distinction for wholly school-assessed subjects. |
| Certificates of Distinction: <br> TER Subjects | were awarded to the eligible students in the top $0.5 \%$ of the candidates or the top two candidates (whichever was the greater) Tertiary Entrance Rank Subject. |
| Certificates of Distinction: <br> Wholly School-assessed Subjects | were awarded to the eligible students in the top $0.5 \%$ of students in Year 12 wholly school-assessed subjects with an enrolment greater than 100. Selection was by panels appointed by Curriculum Council from nominations by schools. |
| Certificates of Excellence | were awarded to students who obtained at least ten letter grades of A in year-long or equivalent subjects in their last two consecutive years of secondary education in Western Australia. |
| Special Awards | are given to students who meet the award conditions but fail to meet the eligibility criteria such as residency, for example. |

## Curriculum Council

Table $1.8 \quad$ Number of Full Fee Paying Overseas Students* in Year 11 and Year 12 by School Sector, 2001

| School Sector | Year 11 Students | Year 12 Students | All Students |
| :--- | :---: | :---: | :---: |
| Government* | 4 | 53 | 57 |
| Catholic | 82 | 67 | 149 |
| Other Independent | 329 | 426 | 755 |
| Total | 415 | 546 | 961 |

[^3]Figure 1.3 Percentage of Year 11 and Year 12 Full Fee Paying Overseas Students* by School Sector, 2001

## Curriculum Council

Table 1.9 Number of Full Fee Paying Overseas Students* Achieving Secondary Graduation in 2001

| Category of Students | Male | Female | Persons <br> Percentage of <br> Eligible Cohort <br> Eligible for Secondary Graduation | 134 |
| :--- | :---: | :---: | :---: | :---: |
| Achieving Secondary Graduation | 111 | 148 | 282 | $100.0 \%$ |
| Not Achieving Secondary Graduation only on the <br> English Language Competence Criterion | 1 | 141 | 252 | $89.4 \%$ |
| Not Achieving Secondary Graduation only on the <br> Grade Criterion | 22 | 0 | 1 | $0.3 \%$ |

* These students are identified through the enrolment process as per their entry visa category. Non-Australian citizens attending Sunway College (Malaysia), Methodist College (Malaysia), Bina Nusantara High School (Indonesia) or St Francis Methodist School (Singapore) were also classified as full fee paying overseas students.

## Curriculum Council

* Up until and including 1994, full-time students were those enrolled in five or more Secondary Education Authority (SEA) approved subjects. Students enrolled in four or fewer approved subjects were classified as part-time. However, in 1995, the SEA resolved that full-time students be classified as those who studied four or more (full year or equivalent) SEA approved subjects.

* No. of enrolled candidates $=$ No. of non-exam candidates + No. who sat + No. who were absent.
** 1995, the Secondary Education Authority changed the procedure for recording absentees for Art, In Music and LOTE subjects. Previously, students who had not sat for the written examination were recorded as being absent even if they had completed the Visual Diary, Performance or Oral/Aural component of the examination.

From 1995, students in these subjects are recorded as being absent if they did not attend both parts of their examination.

| Political And Legal Studies | 26.77 | 42.80 | 61.29 | 72.80 | 98.00 |

* Standardised marks for Japanese: Advanced and Modern Greek are not provided as the raw examination marks were not standardised and are not comparable to other subjects.

Note: The raw marks which are standardised to $35,50,65$ and 75 are those of students whose mark is higher than 10, 30, 70 and 90 per cent of other students sitting the examination. A raw mark of 0 becomes a standardised mark of 0 , and the highest raw mark is standardised to 100 .
Having determined these standardisation points other raw examination marks may be transformed to standardised marks by linear interpolation.

## Curriculum Council

Table 4.16 Subject Loading for each Tertiary Entrance Examination Subject, 2001

The subject loading is the mean Scaled Mark minus 58. Fifty-eight is the overall mean of the scaled marks for all subjects. The subject loading is the extent to which an average student's combined mark is affected by the scaling process. For instance, an average student's scaled mark in Accounting was 2.26 marks lower than his/her combined marks.

| Subject | Mean Scaled Marks* | Subject Loading |
| :--- | :---: | :---: |
|  |  |  |
| Accounting | 55.74 | -2.26 |
| Ancient History | 57.73 | -0.27 |
| Applicable Mathematics | 62.95 | 4.95 |
| Art | 54.22 | -3.78 |

| Physics | 53.02 | 5.02 |
| Political and Legal Studies |  | 1.19 |

* The population is the scaling population. To be included in this population a student must:
- have a combined mark for the subject.
- have marks for at least four TEE subjects including at least one from each of List 1 and List 2.

For language subjects that include both background and non-background speakers, students who are background speakers are excluded.

[^42]

* Up until and including 1994, full-time students were those enrolled in five or more Secondary Education Authority (SEA) approved subjects. Students enrolled in four or fewer approved subjects were classified as part-time. However, in 1995, the SEA
resolved that full-time students be classified as those who studied four or more (full year or equivalent) SEA approved subjects.
** 16+-17-This age range includes candidates who are older than 16 years and up to and including 17 years as at 31 December 2001.

* Pearson Product-moment Correlation Coefficients between the scaled marks achieved by students in the particular subject combination. The number of students in a particular subject combination is indicated under the correlation.

Intercorrelations* Among Quantitative/Sciences and Humanities/Social Sciences TER Subjects, 2001

* Pearson Product-moment Correlation Coefficients between the scaled marks achieved by students in the particular subject combination. The number of students in a particular subject combination is indicated under the correlation.

Note: As the combined marks for English as a Second Language are not scaled, details are not included in the table. Also, Japanese: Advanced and Modern Greek details are not included as the examinations in these subjects are produced by other Australian States and the subjects have very small candidatures.

[^56]
[^0]:    Abbreviations used in section:

    * Introduction to SWL - Generic Skills refers to Introduction to Structured Workplace Learning - Generic Skills.
    * CCAFL refers to Collaborative Curriculum and Assessment Framework for Languages.
    * TAFE refers to Technical and Further Education.

[^1]:    * This category includes secondary students studying at TAFE institutions.

[^2]:    * This category includes secondary students studying at TAFE institutions.

[^3]:    * Number of full fee paying overseas students who completed at least one Curriculum Council subject.

[^4]:    * Aboriginal or Torres Strait Islander students are those who identify themselves to be Aboriginal or Torres Strait Islander orig

[^5]:    * This category includes secondary students studying through the School of Isolated and Distance Education and TAFE Institutions.

[^6]:    * This category includes secondary students studying through the School of Isolated and Distance Education and TAFE Institutions.

[^7]:    * This category includes secondary students studying through the School of Isolated and Distance Education and TAFE Institutions.

[^8]:    * This category includes secondary students studying through the School of Isolated and Distance Education and TAFE Institutions.

[^9]:    * This category includes secondary students studying through the School of Isolated and Distance Education and TAFE Institutions.

[^10]:    * This category includes secondary students studying through the School of Isolated and Distance Education and TAFE Institutions.

[^11]:    * This category includes secondary students studying through the School of Isolated and Distance Education and TAFE Institutions.

[^12]:    * This category includes secondary students studying through the School of Isolated and Distance Education and TAFE Institutions
    ** These subjects have a Tertiary Entrance Examination.

[^13]:    * This category includes secondary students studying through the School of Isolated and Distance Education and TAFE Institutions.
    ** These subjects have a Tertiary Entrance Examination.

[^14]:    * This category includes secondary students studying through the School of Isolated and Distance Education and TAFE Institutions.
    ** These subjects have a Tertiary Entrance Examination.

[^15]:    * This category includes secondary students studying through the School of Isolated and Distance Education and TAFE Institutions.

[^16]:    * This category includes secondary students studying through the School of Isolated and Distance Education and TAFE Institutions.

[^17]:    * Does not include Vocational Subjects.

[^18]:    * Does not include Vocational Subjects.

[^19]:    * Does not include Vocational Subjects.

[^20]:    * There subjects have a Tertiary Entrance Examination.

[^21]:    * There subjects have a Tertiary Entrance Examination.

[^22]:    * There subjects have a Tertiary Entrance Examination.

[^23]:    * There subjects have a Tertiary Entrance Examination.

[^24]:    * There subjects have a Tertiary Entrance Examination.

[^25]:    * There subjects have a Tertiary Entrance Examination.

[^26]:    * There subjects have a Tertiary Entrance Examination.

[^27]:    * There subjects have a Tertiary Entrance Examination.

[^28]:    * Percentage change between 2000 and 2001.

[^29]:    * The total candidature was determined as the number of students who sat at least one TEE subject.

[^30]:    * Up until and including 1994, full-time students were those enrolled in five or more Secondary Education Authority (SEA) approved subjects. Students enrolled in four or fewer approved subjects were classified as part-time. However, in 1995, the SEA resolved that full-time students be classified as those who studied four or more (full year or equivalent) SEA approved subjects.

[^31]:    ** 16+-17 This age range includes candidates who are older than 16 years and up to and including 17 years as at 31 December 2001.

[^32]:    * Private candidates who were absent as a percentage of the number privately enrolled for each subject.

    Note: Examinations in English as a Second Language, Japanese: Advanced and Modern Greek could not be taken as a private candidate.

[^33]:    * Persons in each year who sat for $1,2,3$ etc TEE subjects as a percentage of the total.

[^34]:    * 'Anomalous Performers' are examination candidates who performed significantly differently than expected from their level of achievement in school. In fairness to others their marks were not used to calculate the parameters on which statistical moderation of school assessments was based.

[^35]:    *Note: Statistics on two other TEE subjects, Modern Greek and Japanese: Advanced, are not presented above because the examinations were written in other states and there were insufficient data from the WA candidates to derive meaningful summary statistics.

[^36]:    * Pearson Product-Moment Correlation Coefficients between moderated school assessment and raw examination marks.
    ** The populations consist of all Year 12 students who have a numerical school assessment and a raw examination mark for the subject concerned.

[^37]:    * Pearson Product-Moment Correlation Coefficients between moderated school assessment and raw examination marks.
    ** The populations consist of all Year 12 students who have a numerical school assessment and a raw examination mark for the subject concerned.

[^38]:    * The populations consist of all Year 12 students with a combined mark for the subject concerned.

[^39]:    * The populations consist of all Year 12 students with a combined mark for the subject concerned.

[^40]:    * The populations consist of all Year 12 students with a combined mark for the subject concerned.

[^41]:    * No scaled mark of 100 was given for these subjects.
    ** Scaling points for Japanese: Advanced and Modern Greek are not provided as the combined marks are not based on standardised distributions and are not comparable with other subjects.

[^42]:    ** These subjects had very low populations and the statistics from them can be expected to be affected by statistical fluctuations. The statistics are given, however they should be interpreted with caution.

[^43]:    1 indicates the student is in the top $10 \%$ of students in the subject
    2 indicates the student is in the second $10 \%$ of students in the subject
    3 indicates the student is in the third $10 \%$ of students in the subject etc.

[^44]:    * Persons in each year who sat for $1,2,3$ etc TEE subjects as a percentage of the total.

[^45]:    * Percentage change between 2000 and 2001

[^46]:    * No. of enrolled candidates $=$ No. of non-exam candidates + No. who sat + No. who were absent.
    ** In 1995, the Secondary Education Authority changed the procedure for recording absentees for Art, Music and LOTE subjects. Previously, students who had not sat for the written examination were recorded as being absent even if they had completed the Visual Diary, Performance or Oral/Aural component of the examination.

[^47]:    * Students who enrolled in at least one Unit of Competency/National Training Module in 2001. Enrolled refers to those students who studied the competency/module, however, they may not have successfully completed the competency/module in 2001. Students who were given recognition of prior learning are also included in the numbers.
    ** Students who successfully completed at least one Unit of Competency/National Training Module in 2001. Those students who were given recognition of prior learning are also included the completed numbers.

[^48]:    * Students who completed at least one Structured Workplace Learning Subject in 2001.
    ** This category includes secondary students studying at TAFE institutions.

[^49]:    * Students who successfully completed at least one Unit of Competency/National Training Module and at least one Structured Workplace

    Learning Subject in 2001.

[^50]:    * Students included in this table achieved subject equivalents by successfully completing either non-embedded/stand alone competencies/modules or Recognition of Workplace Skills (RWS).
    ** There were 87 students who studied RWS in this category of students. These students may have also studied competencies/modules.
    *** There was one student who studied RWS in this category of students. This student may have also studied competencies/modules.
    **** There were no students who studied RWS in this category of students.

[^51]:    * Students who successfully completed at least one Unit of Competency/National Training Module in 2001.

[^52]:    * Students who successfully completed at least one Unit of Competency/National Training Module in 2001

[^53]:    * Students who successfully completed at least one Unit of Competency/National Training Module in 2001.

[^54]:    * Progression rates are expressed as percentages of the previous year. The calculations do not include senior college students, full fee paying overseas students or mature age students at senior campuses (from 1996).

[^55]:    * Retention rates are expressed as percentages of the Year 8 cohort. The calculations do not include senior college students, full fee paying overseas students or mature age students at senior campuses (from 1996).

[^56]:    * Pearson Product-moment Correlation Coefficients between the scaled marks achieved by students in the particular subject combination. The number of students in a particular subject combination is indicated under the correlation.
