

Application for exemption from enrolment eligibility criteria for Foundation units

School principals are able to seek enrolment permission from the School Curriculum and Standards Authority (the Authority) for students who fall outside the Eligibility for Foundation courses enrolment criteria as outlined in the *WACE Manual 2019* Section 1.8.

Applications for enrolment will be considered where:

- a current Western Australian student has no Online Literacy and Numeracy Assessment (OLNA) data and/or relevant Year 9 National Assessment Program – Literacy and Numeracy (NAPLAN) data **(Section A)**
- a student who has recently arrived from interstate and has no OLNA data or relevant Year 9 NAPLAN data **(Section B)**
- a student who has recently arrived from overseas and has no OLNA data or relevant Year 9 NAPLAN data **(Section B)**
- a Year 11 Foundation course student at the end of Semester 1 has met the relevant OLNA literacy and/or numeracy requirements, but changing the student enrolment to a General course in Semester 2 will not be educationally sound or beneficial for the student. **(Section C)**

A signed declaration by the school principal is needed to ensure that enrolment in Foundation course units meets the best educational needs of the student.

The application form should be received by the Authority by the following due dates:

- **Thursday, 23 May 2019 (Semester 1)** – after March OLNA results are released
- **Thursday, 7 November 2019 (Semester 2)** – after September OLNA results are released
- **Thursday, 20 February 2020** new enrolments **only**, in new school year
- **Case-by-case basis** for recently arrived interstate and overseas students.

✉ Applications and supporting documentation should be emailed to:
foundationapplications@scsa.wa.edu.au

Note: One application per student. No bulk applications accepted.
